

## BIO:

Jesse is a renowned local mural artist and abstract painter working in the Berkshires. She received her degree from Otis College of Art & Design in Los Angeles. Jesse has worked as a creative director in Los Angeles, New York and the Berkshires. She also sits on the board of the Berkshire Art Association. As a Pittsfield native, she was a part of the art collective, Group W, that held large scale exhibitions in a steel fabrication plant in Pittsfield. Her paintings are mixed media on canvas and paper - bursts of bold, bright, saturated color, line and shapes. They evoke a feeling of happiness through the flood of interacting abstract color.

## DISTILLATIONS WORK

All works for DISTILLATIONS were created during the pandemic. They were a chance to distill all of the energy, chaos and confusion in my mind and with a carefree hand and loose style to translate it to paper. The energetic lines and colors were then distilled further to calm and concise color-field shapes.
